

Hardware Specialties Model V-HC Handicap Gate is a reliable gate designed primarily for patrons entering in wheel chairs or with strollers. These gates are ADA compliant for Handicap Accessibility, but local building code requirements are the customers responsibility.

Hardware Specialties manufactures the Model V-HC Handicap Gate with all Stainless Steel material. The gate frame is 1^{1/2}" diameter O.D., 16-gauge Stainless Steel Tubing. The VHC Gate comes with a 10"x36", 11-gauge, brushed Stainless Steel, kickplate at the bottom. All welds are ground smooth.
